

ORIGINAL AND CUSTOM MADE JUMBO PROPS, LOGOS, AND PRODUCT REPLICAS

Turn heads and stop foot traffic with larger-than-life brand moments.

We design and fabricate oversized replicas, bold dimensional logos, and custom giant props that transform everyday products into unforgettable experiences. From 3-foot-tall deodorant and toothpaste to massive sculptural hands and photo-ready icons, every piece is built to scale, crafted with care, and tailored to your brand. These statement pieces don't just get noticed—they get photographed, shared, and remembered.

JUMBO PROPS

Jumbo props are always a crowd favorite - and for good reason. These larger-than-life pieces instantly become the focal point of any event, drawing people in, sparking conversations, and creating must-take photos.

These builds turn your brand into an experience. Every prop is fully custom designed and fabricated to match your brand's look, feel, and messaging. From colors and finishes to logos, textures, and proportions, we recreate your product at scale with precision and intention. The result is a standout piece that doesn't just look impressive - it feels unmistakably yours

DRAW A CROWD

Oversized props are powerful tools for activations, booths, and live events. Their sheer scale creates instant visibility from across the room, pulling people in and naturally guiding foot traffic to your space. In busy environments, jumbo builds act as visual anchors - making it easy for attendees to spot your booth and impossible to ignore your brand.

Beyond attention, these props encourage interaction. They become gathering points, photo moments, and conversation starters that keep people engaged longer and create organic buzz on the show floor and online. Whether used as a centerpiece or a supporting element, custom jumbo props help turn passersby into participants - and crowds into lasting brand impressions.

SHAREABLE MOMENTS

Jumbo props naturally become the backdrop for impromptu and planned photo opportunities, turning your activation or booth into a social media magnet. Guests love snapping pictures with oversized products, playful sculptures, or iconic branded pieces - and every share spreads your brand far beyond the event floor.

By creating engaging, photogenic moments, these props amplify your presence, spark online conversations, and give your audience content they're excited to post. With custom design tailored to your brand, every oversized prop isn't just a showpiece—it's a shareable experience that keeps your product and messaging in the spotlight long after the event ends.

IMAGINATION AT FULL SCALE

We don't just make big products—we bring big ideas to life. From oversized everyday items to completely custom, experiential sculptures, our team transforms imagination into tangible, attention-grabbing creations.

Take, for example, the giant hands forming a heart we designed for a Taylor Swift tailgate party. More than just a prop, it became a centerpiece, a photo moment, and a conversation starter—all perfectly tailored to the event's theme. Whatever your vision, we can push boundaries, play with scale, and turn your boldest ideas into reality. With us, the only limit is your imagination.
